The figure consists of two separate horizontal line plots. The top plot shows data series A, which starts at a value of 100 on the y-axis and remains constant until approximately x=100, after which it drops sharply to about 10 and stays there. The bottom plot shows data series B, which starts at a value of 100 on the y-axis and remains constant until approximately x=100, after which it drops sharply to about 10 and stays there. Both plots have a grid background.
